### Multiple Payment Methods

Get ahead of your competitors and digitize your payments. Veem supports multiple payment methods including ACH/EFT and International Wires as well as Credit and Debit Cards in a single easy-to-use interface.

### Accept card payments from 100+ countries without a merchant ID

Forget about merchant accounts, it's easier than you think to start accepting card payments. Veem allows you to receive payments, without a merchant ID, from shippers based in 100+ countries.

### Instant Deposits

Veem delivers the fastest way to receive payments. Get paid within minutes to your bank account using our Instant Deposit product which is available in 70 countries.

### Real-Time Payment Tracking

Veem's payment tracker is a convenient and simple way to stay up-to-date with your payments. With our real-time tracker, you always know where your money is at and when it will be transferred. With no receiver or sender fees or and competitive FX rates, Veem will save you money.

### Veem Wallet

Bypass fees, avoid currency exchange and remove the guesswork with Veem Wallet. Accept USD payments in Veem Wallet at no cost in 100+ countries.

## Multiple ways to integrate

There are multiple ways you can integrate with Veem's platform, enabling you to customize your experience and workflow. Integrate Veem into your existing software via APIs, drop-in components or through single sign-on. We'll enable you to securely receive and send payments anywhere around the world and help your business grow.
