# Comprehensive supply chain management

We manage and digitise your integrated supply chain, 100% adapted to your needs..

We complete the entire process, from **start** to **finish**.

# What we believe in

# 02

# What we believe in

---

## Innovation in every step we take

The supply chain of the future is digital, and also human. We have **fully digitised and automated processes**; our own cutting-edge tools;

**first class engineering**; the best human resources and the most advanced technology to guarantee efficient management of the entire chain.

---

## Sustainability and positive impact

We want to change the rules of the game. We want to be the company that enables the **transformation that the sector and society need**. We see sustainability as a transversal approach.

that is integrated into our business model, through which we seek a balance between our activities and respect for the environment and people's well-being.

---

## 11,000 people, a team

Sesé is the sum total of a team of over **11.000 professionals of 57 nationalities** who, day after day, strive to provide the best service with the greatest dedication.

In an increasingly complex world, there is a need for knowledgeable and conscientious companies that are capable of delivering economic and social value at every stage of the supply chain.

# Our values

Personal involvement and commitment determine our every step.

The way we interact with our environment is guided by our values.

Commitment

Passion

Accountability

Reliability

Flexibility

# First life

In 1965, **Alfonso Sesé Tena** started his business in Urrea de Gaén (Teruel), dedicated to transport of goods by road. For years, it was dedicated to the purchase, sale and transport of agricultural products, the seasonality of which allowed it to meet the needs of other customers, optimise resources and grow to a modest fleet of lorries.

**And so it all began.**

sesé

# Second life

The second life took place 30 years later, when, cuando **Alfonso Sesé**, together with his sister, **Ana Sesé**, created the family company on the basis of their father's achievements and with a clear objective: to grow the business and diversify services. Their instinct for identifying new opportunities and a spirit marked by **courageous decisions**, led to the opening of **international locations** and the diversification of the business beyond road transport: logistics and industrial services were added to our range of solutions.

**Sesé, as a global company, is already a reality.**

The logo for Sesé, featuring the word "sesé" in a stylized, italicized, lowercase font.

# Third life

Now, our **third life** begins. Sesé has become an **integrated supply chain manager** with the same entrepreneurial spirit as on day one. Now, aware of our environment, we know that we have a role in the world and that we have the capacity to achieve great things. Technological innovation and sustainability mark our path to **transform the supply chain of the future.**

**Sesé, the courage to find the solution with you**

# International Road Transport, Logistics & Customs

We offer complementary services which allows us to take on any challenge on supply chain. Mainly we commercialize services of road transport across Europe, as well as logistic and distribution in more than 20 logistic centers on national level which provide us of the capacity required by our customers.

## ROAD TRANSPORT

We can give a solution to all your needs thanks to our fleet, one of the most important in Europe. All of it handled through an own software and our Control Tower.

**FTL – Full Load:** Service of full load to any European destination, in standard vehicle and mega truck. Our vehicles have a monitoring system by GPS, that allows us to know location of your cargo.

**LTL – Less Truck Load:** Based on our European agent's network, regular departures from and to principal business areas.

## LOGISTICS AND DISTRIBUTION

We offer experience and advanced technology for the management of all logistics processes: reception, storage, order's preparation, location, classification, etc.

In addition, we complement our offer with a distribution service, based on courier, conventional service and also, dedicated service, which allows us to fulfill requirements and needs of our customers

## CUSTOMS

We are customs clearance agents in addition to OEA.

We carry out all type of customs procedures in front of Tax Agency in mode of indirect representation, presenting and processing documents, acts and formalities in which we take part, facilitating the tax deposit and all type of taxes.

# Other services

Supported by technology, we provide coverage and global visibility, in addition of an excelente service through a big team of professionals.
